“ I always felt Bernie was the "glue" that held this family together. God bless her for the many years she took care of her mother and for having a welcoming home to all...family and friends. It seemed to be the gathering place. She was a good sister to Richard as his health continued to decline with visits to our home in Lockport. God bless her and keep her in the palm of His hand.

“ I just want to say that we miss you so much. Co-vid kept you from coming down and us from coming up to visit. You came to visit me every day that I was in the hospital and always asked if I needed anything. I never needed anything but I know that you would have brought it for me. I miss going out to eat and the conversations we had.
