“ I have so many memories of Peggy as she was Jacque's best childhood friend. Once she was at our house during the Christmas season and saw all the wrapped presents under the tree, spotting one labeled for Jacque. She asked if Jacque knew what it was, Jacque replied that she didn't and Peggy picked-up the box, shook it and told Jacque it was socks. And she was right!! Peggy admitted that she knew everything she was getting for Christmas because she peaked. So every year Jacque will shake a Christmas package and say "socks" and we laugh at the memory. And every time I cleaned my bedroom Jacque would have Peggy spend the night, and of course I would have to give up my bed because it was a double bed and Jacque's was a twin. Funny how that worked. Custer Park was wonderful place to grow up and the Faletti farm was a fun place to visit. Lots of memories through 4-H, all the school functions, and Peggy was a dear, close friend. Thanks for the great memories.
